### **Introduction to Swing Presentation Note Taking Sheet**

1. Write a brief summary of what Swing Dance is. Include some information about Lindy Hop as well.
2. Which reason do you think is the most important as to Why we teach Swing Dance and explain why?
3. What is your summative assessment for the unit?
4. Normally I wouldn't have you re-list information, but, since Learning Targets are the central focus of the unit, please bullet list a summary of all the Learning Targets.
5. Explain the roles of the Leader and Follower.
6. Explain the differences between Open Dance Position and Closed Dance Position. Be sure to include where the Leader and Follower place their hands and position their feet.
7. Explain how the Leader executes an Outside Turn and what the Follower should do (doesn't really matter if it is from Open or Closed).
8. Explain how the Leader executes an Inside Turn and what the Follower should do (doesn't really matter if it is from Open or Closed).
9. Describe how your partner (or partners in general) will be chosen in the unit.
10. Of all the moves described that you will learn, which 2 seem like they may be the most exciting to learn.

#### **Be sure to also complete this before the first day of the unit:**

Dancers- I need you to watch all the videos and look at the pictures in this slide presentation and practice them between now and the first day of the unit. There will be a pre-assessment on Open and Closed Dance Position, Basic Foot Pattern and whether you can execute an Inside and Outside Turn.
